DATE 22.11.2010

SESSA C32

The small YACHT-CRUISER at your fingertips!

Lively, elegant, smart and comfortable...

STYLE the Italian way

Milan, 22nd November 2010. This small "Yacht-cruiser" will have no reason to envy its predecessors C35 and C38. Despite its well-contained dimensions, it will be spacious, luminous and ergonomic, offering the high-quality design and materials that are now recognized as Sessa's trademark. It is distinguished by its intelligent sunroof that does not infringe in any way on the line of the boat, uncommonly svelte for a vessel of this size.

Sessa C32

Building on the experience the shipyard has accumulated from its range of yachts, the C32 is made for boat owners **wishing to set forth into the world of SESSA MARINE.**

Thus the Italian shipyard, whose strategy lies in managing its resources to provide winning designs time and time again for all models in the range, offers boat owners the possibility of benefiting from excellent performances comfort and quality even when opting for smaller-scale dimensions.

ONE OF A KIND, THE LUMINOUS HARD-TOP IS EQUIPPED WITH A CANVAS HOOD

For a functional and elegant roof-opening system, without cluttering the look of its new cruiser, SESSA MARINE has designed a **clever and stylish canvas soft top.**

When entirely open, the sliding soft top folds back concertina-style, leaving the opening entirely exposed. This convertible version opens up a vast window onto the sky.

In that way, the Hard-Top with its transparent sides fulfils its role as a windbreaker and a sun visor, while also providing exceptional luminosity throughout the cockpit.

In the same spirit, observe the large side windows of the superstructure, with no central column to block visibility.

SPOTLIGHT ON SPACIOUSNESS

Going down into the cabin, we are at once enveloped in the world of SESSA: chocolate leather, cinnamon coloured walnut, fabrics... **warm and modern materials that are dear to the Italian brand.**

The master cabin is set apart and positioned in the centre of the boat, offering maximum comfort. **The headroom is agreeably surprising.** Indeed, the ingenious closet system (equipped with spacious wardrobe and mirror) acts as an anteroom between the bathroom and the double bed, allowing this height to be offered and removing the sensation of confinement often perceived in cabins of boats this size.

THE FAMILY BOAT PAR EXCELLENCE

Equipped with a lounge that can be converted into a second cabin, a separate shower room, stern bridge with the capacity for a mini-tender and generously proportioned sun decks, the C32 can accommodate a couple and two children on vacation... for trips from port to port or more!

The C32 is available in two engine versions: the new diesel VOLVO PENTA D3 200 HP (with joystick) or petrol GXi 5.7.

It will be showed as a worldwide exclusive at the next Paris Boat Show held at Porte de Versailles.

ABOUT SESSA MARINE

Established by the Radice family in 1958, Sessa Marine produces high quality yachts in 4 product lines, open and flybridge styles, starting at 18 feet and continuing to 68 feet. The aim of our "family run company", best known for our innovation, is to design and produce exclusive boats that achieve the optimal balance between design and technology, between style and quality, pursuing its mission of creating wonderful emotions for owners of Sessa yachts.
