

## UNA EMBARCACIÓN DE CRUCERO QUE LE PERMITE EVADIRSE Y EXPLORAR CON ESTILO

Una combinación de diseño británico y flexibilidad para navegar en cualquier condición climática. La C48 es una embarcación completamente preparada para su uso. No es necesario preparar los toldos o las lonas antes de salir, simplemente suba y póngase en marcha. Es una embarcación ideal para sacarle el máximo provecho en cada momento. Este sentimiento de libertad es aún mayor a través de su salón y posición de timón cerrados. Gracias a su techo solar de accionamiento eléctrico y una puerta corredera, la C48 le ayudará a mantenerse a la temperatura deseada, no importa cuáles sean las condiciones del exterior. Los fiordos nórdicos o los cálidos puertos del Mediterráneo, es libre de ir donde quiera y cuando quiera. Equipado para una gran capacidad de combustible, almacenamiento, refrigeración de alimentos, la C48 le permite realizar largas distancias de crucero con comodidad. No hay otra embarcación mejor pensada que permita "compartir la aventura".

## SHARE THE ADVENTURE IN TRUE COMFORT

The new C48 is a true cruising boat that allows you to escape and explore in style

---

A combination of striking British design and the flexibility to cruise in all weather conditions, the C48 is a complete ready-to-use craft. No need to prepare canopies or covers before you set off, simply walk on and go. Ideal for when you want to make the most of every moment.

That sense of freedom is further enhanced through an enclosed saloon and helm. Thanks to an electrically powered sunroof and a sliding patio door, the C48

will help you stay delightfully warm, or sublimely cool, no matter what the conditions outside. Nordic fjords or Mediterranean hot spots, you're free to go wherever, whenever.

Complete with generous fuel holding capacity, storage, food refrigeration and touches of luxury throughout, the C48 allows you to cruise long distances in comfort. No other boat goes further to let you share the adventure.

## The luxury of freedom

---

Sealine's distinctive use of space and light is taken to new levels in the cockpit and saloon of the C48.

The sliding four-part patio door opens effortlessly to create a best in class social space all on one level, with the perfect connection between its light and airy saloon and the cockpit. While the large electric opening sunroof with glass skylights and sunblinds allows you to control how much light floods in.

That generous use of space is also intelligently used with beautifully styled seating and crafted furniture placed to create the most open and accessible space possible. A large TV in the saloon, viewable from the cockpit, complements the arrangement and maximises the sheer usability of the area.

## A space in which to do so much more

---

Once the large four-part patio door is open, a truly generous and fluid space is created.

When it comes to dining, the large L-shaped seating area in the saloon and three moveable stools with built-in storage allow six people to unwind and dine in comfort. Or, if you want to go alfresco, the removable table and stools can be quickly transferred to the generous bench seat in the aft cockpit; again, creating easy dining for six.

An integrated wet bar with grill, a barbecue, and a sink unit equipped with both hot and cold water, lets you rustle up something for family and friends. Should you wish to relax, simply take it easy under

the optional electric sunshade deployed from the roof line. Or for those who want to cool off even more, step out onto the large 2m wide teak-laid bathing platform with removable swim ladder.

To make life as easy as possible, the cockpit has generous storage areas including a large lazarette with enough space to convert into an additional crew cabin. Step back inside the main cabin and a large corner sofa quickly converts to a double berth on which to relax after a full day.

And when it's time to leave, the optional concealed remotely operated retracting passarelle makes everything a simple and sure-footed affair.

Optional hi-lo platform for tender launch system, capable of deploying a large tender  
Remotely operated retracting passarelle

## A relaxed view of the world

---

The flow through the saloon of the C48 extends through to the helm. Its elevated position and panoramic wraparound windscreen offer you and your fellow travellers uninterrupted views as you cruise.

Four individual sport seats, complete with hinged bolster, allow you to share the experience as you enjoy the space and light created by the electric sunroof with its expansive 5.5 square metre aperture above the helm and saloon area.

A thoroughly considered design includes a folding chart table and a storage locker on the port side, while the ergonomically designed helm on the starboard side is well equipped to deliver a comfortable experience – even over long distances. With plenty of stowage on both sides of the helm, you'll also be able to place everything you need easily at hand.

And for additional comfort and convenience, just a few steps below you is a spacious open plan galley with an optional split-level wine chiller, an integrated hob and oven, ample storage and enough room to accommodate a washing machine, dishwasher and a large refrigeration unit.

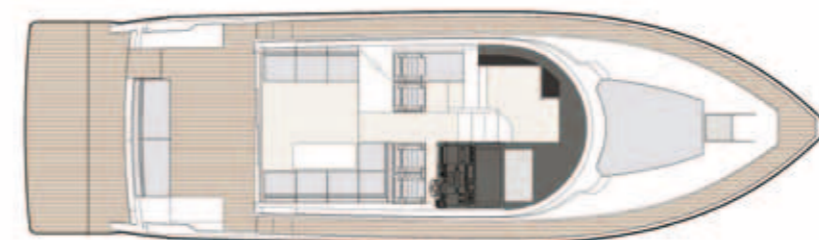

### Room to stretch out and stand up

For those longer cruising experiences, you can look forward to superb accommodation below deck. The forward VIP cabin features an en suite shower compartment and separate en suite heads, wardrobe units, a double berth, and a TV unit conveniently situated opposite the bed.

The mid-cabin has a light and airy feel created by a skylight and double doors to the cabin. Yet it also offers ample storage and the ability to sleep two in bunk beds.

The large midship master cabin offers exceptional room and comfort with full standing headroom across the width of the cabin, a comfortable walk-round area and panoramic hull windows for an even greater sense of space and luxury. An optional large TV system and two large full-height wardrobes offer generous space and are tall enough to easily hold dresses and gowns.

## THE NEW C48

### ENGINE

Propulsion Twin Volvo Penta IPS600 engines with full joystick control and electronic steering
