

# NOVEDAD SESSA FLY 45

Like an Open yacht in form and performance, but like a Flybridge with its generous distribution of space, the SESSA FLY 45 is a true turning point in this segment of the market. Rather than calling it a SPORTY FLYBRIDGE, SESSA introduces the concept of the ADVANCED OPEN YACHT for its FLY 45. And so here is a yacht designed for people who really sail, in response to all their needs: the perfect balance between indoor and outdoor spaces, bold lines and sculpted forms, performance, technologies and, in particular, outstanding optimisation of space in the first 45 foot vessel on the market with three very comfortable cabins (about 17 m<sup>2</sup>), featuring bathrooms with separate shower stalls, a spacious, ergonomic galley, a brightly lit living area and a FLYBRIDGE that can comfortably host 8-10 people (16.5 m<sup>2</sup>).
